When long droughts occur, the always

part of the population. It follows naturally that when undertaking a journey
through the desert, the paramount question is water. A supply must be carried

camels' pack-saddles. These are the
water-bottles of Scripture, which become
leaky from wear, and always loose a considerable portion of their contents by
evaporation. The first thing after reaching a well is to ascertain the quantity and

The best water is found in som salts. The best water is found in natural rocky reservoirs in deep narrow gorges where the sun never shines. As to "live springs," I never saw half a dozen in 6,000 miles travel.

A pretty good story is going the rounds by word of mouth. It is said that a trio of members of the Illinois Legislature went on a jamboree the other day, and,
